We build machines that are highly efficient and robust, make everyday use easier and set new standards in harvesting technology and soil cultivation – at the highest international level. As a medium-sized company with 100 years of tradition, we are constantly developing our product portfolio and improving existing machine series. Because farmers and contractors all over the world today expect good service, quality and therefore much more than standard products that simply work. ZIEGLER meets these requirements.

Disclaimer: Price information (if available) plus VAT and shipping costs. No liability for printing errors. Illustrations and images may contain special features. Technical information, dimensions and weights are non-binding and only refer to the basic models of the machines. The final weights therefore depend on the final equipment and options selected. SUNMASTER FARMLINE THE REPORT OF THE PROPERTY OF THE PROPERTY

■ TECHNISCHE MAßE / TECHNICAL DATA					
SUNMASTER FARMLINE	REIHEN ROWS	REIHENABSTAND / ROW DISTANCE	BREITE (70) / WIDTH (70)	BREITE (75) / WIDTH (75)	GEWICHT / WEIGHT
FARMLINE 600	6000 x 2300 x 1100 mm (6m Arbeitsbreite / Working width), ca. 250 PS/HP				≈1.900 kg
FARMLINE 740	7350 x 2300 x 1100 mm (7,4m Arbeitsbreite / Working width), ca. 250 PS/HP				≈2.300 kg
FARMLINE 940	9400 x 2300 x 1100 mm (9,4m Arbeitsbreite / Working width), ca. 250 PS/HP				≈2.900 kg

SONNENBLUMENERNTE OHNE KOMPROMISSE UND OHNE ABHÄNGIGKEIT VOM REIHENABSTAND

SUNFLOWER HARVESTING WITHOUT COMPROMISE AND WITHOUT DEPENDENCE ON ROW SPACING

HIGHLIGHTS

Die Sonnenblumen-Schneidwerkserie SUNMASTER FARMLINE überzeugt durch Ihre Leistung und Robustheit. Die Rowfree-Technik macht die Ernte besonder einfach, unabhängig vom Reihenabstand

TOP FEATURES

The SUNMASTER FARMLINE sunflower header series impresses with its performance and robustness. The rowfree technique makes the sunflowerharvest much easy.

HIGHLIGHTS

PRO

Wahlweise hydr. oder mechanischer Haspelantrieb

ZSM 1070

- Verstärkter Häckslerantrieb, langlebig, zuverlässig
- Hydraulisch höhenverstellbare Unterbauhäcksler
- Extra lange Schiffchen mit sehr schmalen Spitzen
- Besonders breiter Sammeltisch, weniger Ernteverlust
- Besonders schlanke Seitenteile (Erntepflanzenschutz)
- Höhenverstellbare geschlossene Haspel
- Extra lange Schiffchen mit Rückfallschutz
- Schuhmacher Messersystem

TOP FEATURES

10,70 m

- Optional hydraulic or mechanical reel drive
- Reinforced chopper drive, durable, reliable
- Hydraulically height-adjustable underframe choppers

16

 $\approx 4.150 \text{ kg}$

- Extra-long skids with very narrow tips
- Extra-wide collection table, less crop loss
- Extra-slim side panels (crop protection)
- Height-adjustable closed reel
- Extra-long shuttles with fallback protection
- Schuhmacher knife system

DIE SUNMASTER PRO ROWFREE SERIE (R) IST MIT EINEM HYDRAULISCH HÖHENVERSTELLBAREN UNTERBAUHÄCKSLER AUSGESTATTET

THE SUNMASTER PRO ROWFREE SERIES (R) IS EQUIPPED WITH A UNDERFLOOR CHOPPER
